## Year 2004 Transportation Studies

# Call For Ideas!

Let's work together to  
improve transportation in  
Miami-Dade County!

The Miami-Dade Metropolitan Planning Organization (MPO) for Transportation is seeking new ideas for transportation planning studies. Ideas submitted will be considered for inclusion in the Unified Planning Work Program for Transportation (UPWP). The UPWP will describe the transportation planning activities to be completed during 2004 for the metropolitan area. Please forward your idea(s) via fax, phone, e-mail or in writing to the addresses listed on this brochure, or simply return this form. The deadline for submissions is January 16, 2004 (see form on other side). Should you have any questions, please don't hesitate to contact the project manager, Mr. Oscar Camejo, at the MPO office.

## Play a part in GOVERNMENT!

Miami-Dade County is one of the most congested cities in the United States in terms of vehicular traffic. The Metropolitan Planning Organization (MPO) is responsible for transportation planning in Miami-Dade County. The MPO is guided by its Governing Board which consists of 22 voting members as follows: 13 Miami-Dade Commissioners, a representative from the citizenry of unincorporated Miami-Dade County, a member of the Miami-Dade School Board, a member of the Miami-Dade Expressway Authority and an elected official representing each municipality with 50,000 residents or over which include the Cities of Hialeah, Miami, Miami Beach, Miami Gardens and North Miami, and a represen-

tative for the remaining cities. Transportation planning studies are incorporated in the Unified Planning Work Program for Transportation (UPWP). This document is prepared every year. The MPO is seeking new ideas to study ways to help alleviate traffic congestion in Miami-Dade County. Ideas selected will be included by a committee of transportation professionals as studies for adoption by the MPO Board. This is your opportunity to get involved and make a difference.

The following text is one example from the current year program (condensed version):

**Title:** Intermodal Connectors

**Objective:** To identify opportunities for the creation of intermodal facilities and operations that will enable the public and private sectors to jointly serve the transportation needs of major employment centers, neighborhoods, and tourist destinations.

**Tasks:** Review previous relevant studies to determine their benefit and avoid duplication. Determine new intermodal and transfer location opportunities. Data Collection and Analysis. Identify potential intermodal and transfer locations. Evaluate surrounding land uses and opportunities and conduct surveys to obtain users and service providers input.

**End Product:** An action plan to implement the recommended facilities at intermodal and/or transfer locations.

Examples of new studies previously conducted or being conducted are viewable on our website.
